

## Coatex

Combine colour with a Coatex finish on your windows, and get clean aesthetics and user-friendliness in one. This coating brings more texture and is scratch-resistant, which makes it the ideal low-maintenance solution for families with adventurous children or playful pets.

For all available colours, contact your Reynaers Aluminium professional.

### ABOUT REYNAERS ALUMINIUM

*“Together we improve the living and working environment of people, now and for generations to come.”*

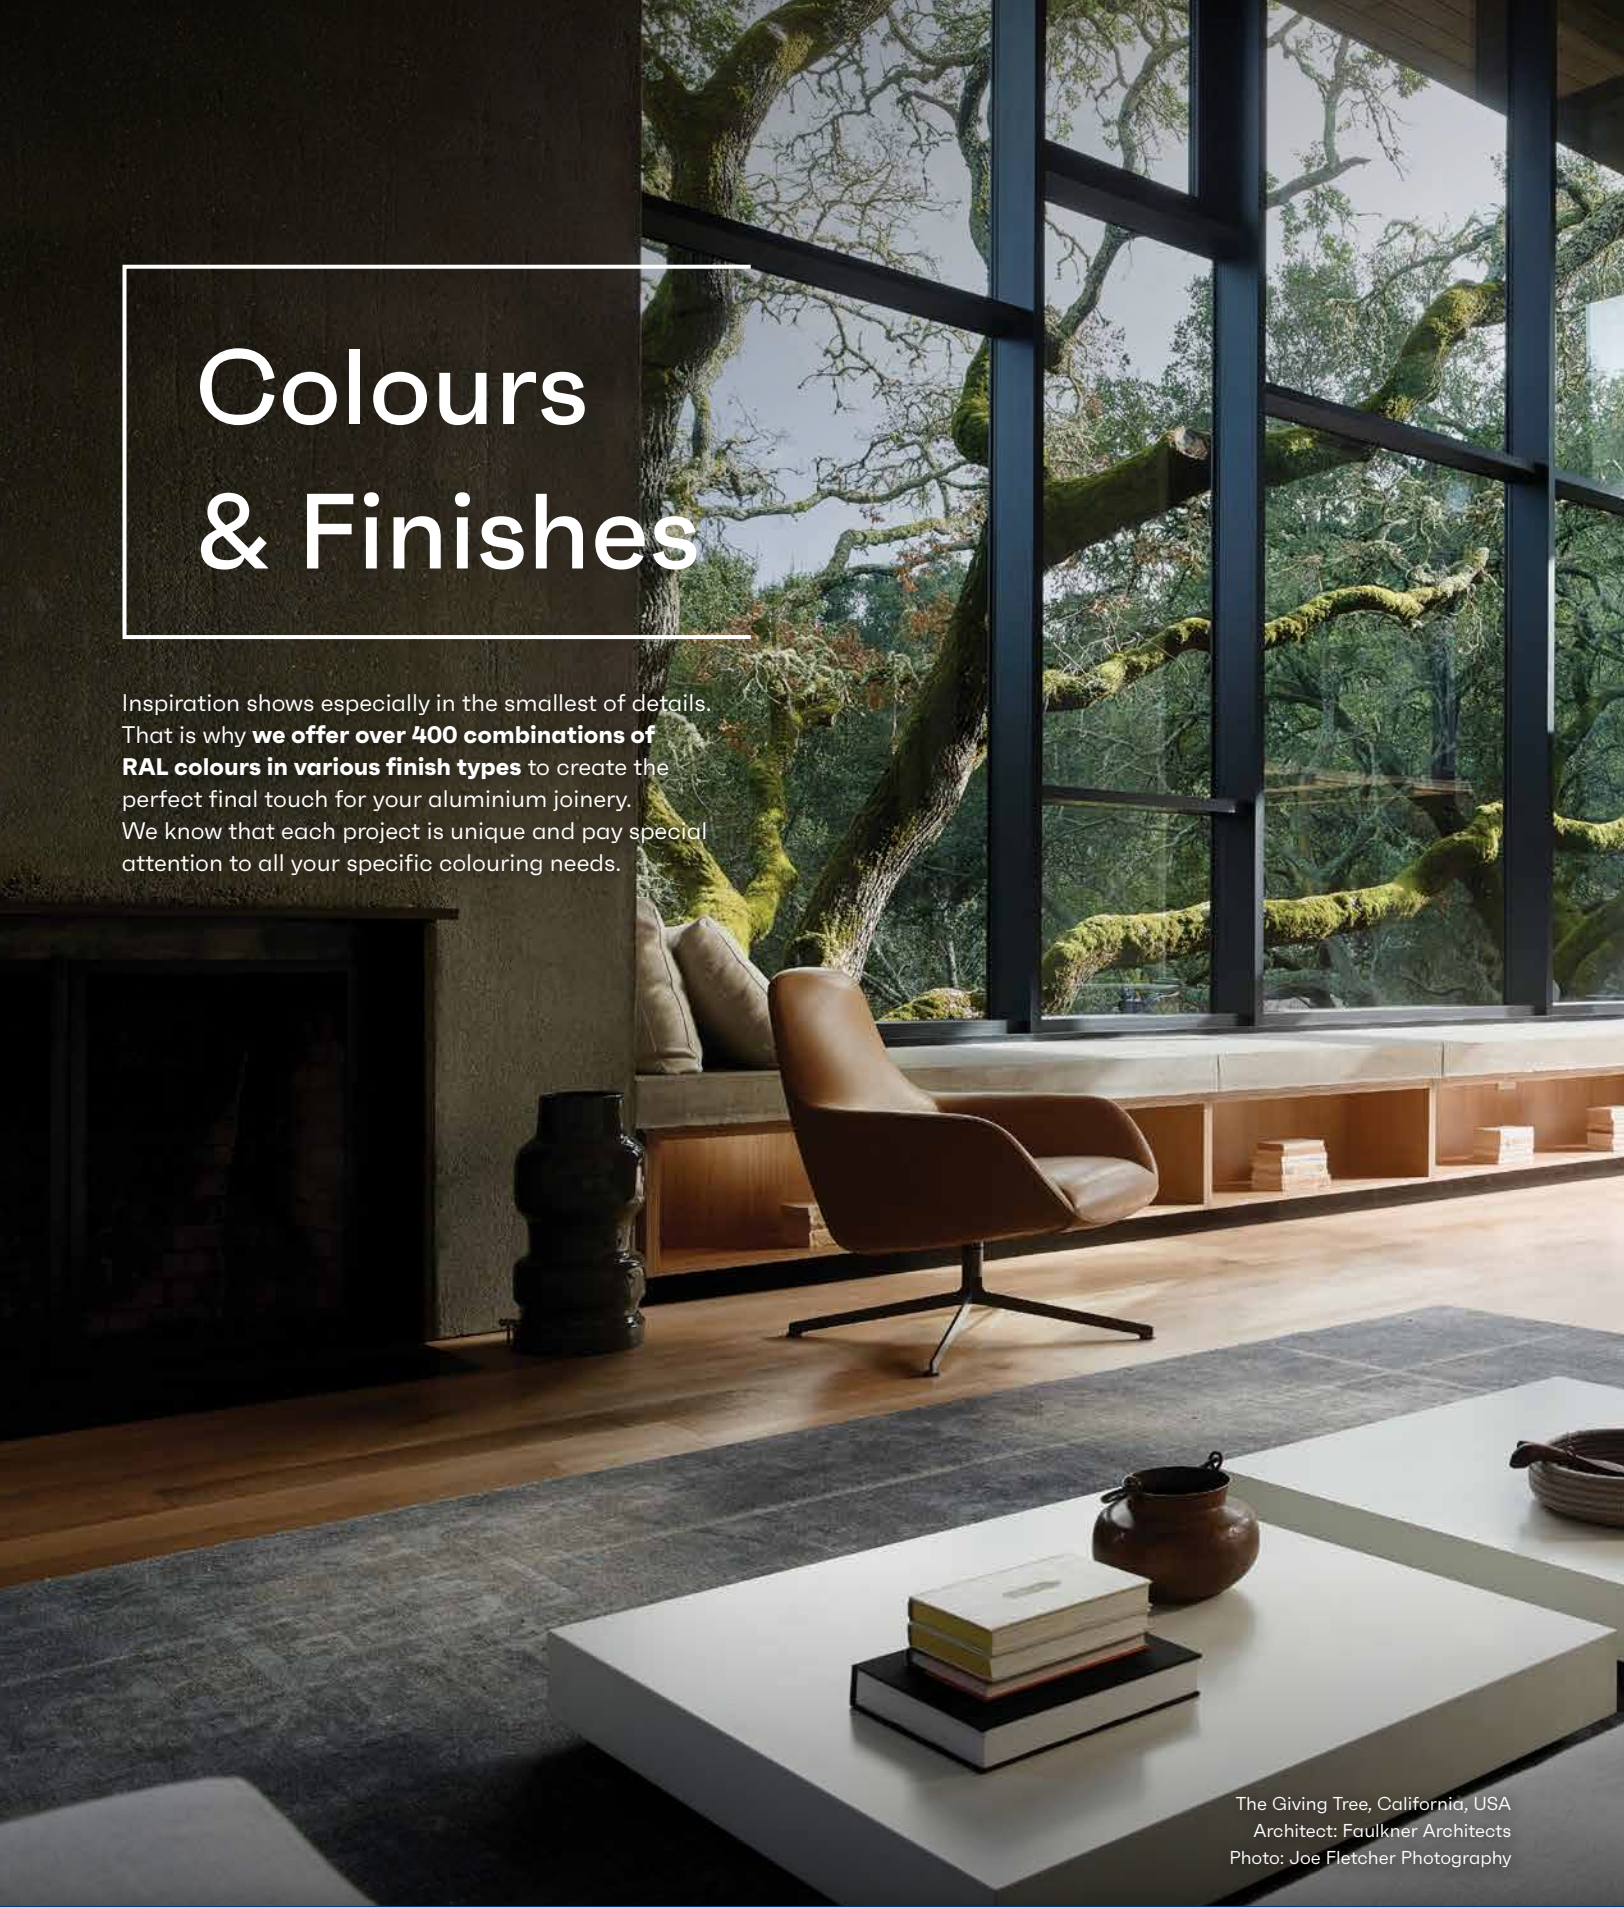

Reynaers Aluminium is a leading specialist in the development and marketing of innovative, sustainable aluminium solutions for windows, doors and façades. Together with our partners, we focus on creating energy-efficient, responsibly-made products that make a difference for homes, buildings and the people they serve.

Partner intimacy is at the core of what Reynaers Aluminium does. We strive to meet the expectations of our 5,000 partners worldwide in a flexible and solution-oriented way. By focussing on partnership, sustainability, innovation, and operational excellence, we deliver high-quality solutions that add value and inspire people to create exceptional buildings.

Inspiration shows especially in the smallest of details. That is why we offer over 400 combinations of RAL colours in various finish types to create the perfect final touch for your aluminium joinery. We know that each project is unique and pay special attention to all your specific colouring needs.

## Colours & Finishes

Inspiration shows especially in the smallest of details. That is why **we offer over 400 combinations of RAL colours in various finish types** to create the perfect final touch for your aluminium joinery. We know that each project is unique and pay special attention to all your specific colouring needs.

## Satin & Matt

Nothing beats the classics. Choose a glossy Satin or subtle Matt powder-coated finish for your aluminium joinery, and enjoy a clean and durable result in every shade you want. Available in combination with our entire RAL colour collection, these finishes never disappoint.

For all available colours, contact your Reynaers Aluminium professional.

Satin	Matt
	
59.8017	79.5M11
	
59.6012	79.9M11
	
59.3004	79.9M05
	
59.7034	79.6M11
	
59.9002	79.6M03
	
59.9018	79.5M10
	
59.9003	79.7M36
	
59.1015	79.7M31
	
79.1M14	79.5M24
	
79.1M19	79.1M19
	
79.7M03	79.7M03

## Tiger, Metallic & Anodic Look

Looking for something extraordinary? We have got you covered with our shiny Metallic or structured Tiger finishes. The metallic particles will bring that extra sparkle to any project. An Anodic Look is a powder-coated alternative for anodised profiles and accessories. Use it to pair non-anodisable hardware accessories with anodised profiles.

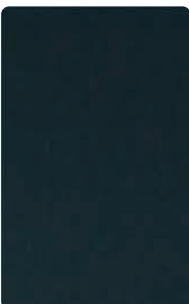

For all available colours, contact your Reynaers Aluminium professional.

Tiger	Metallic	Anodic Look
		
49.7G21	99.8H14	Malachite
		
49.9G05	99.7H31	Sapphire
		
49.9G11	49.8G14	Black
		
49.8G14	99.9H07	Natura
		
49.9G09	49.9G03	Champagne
		
49.9G14	49.9G06	Gold Axalta
		
49.9G03	99.9H06	Bronze
		
49.9G06	99.9H06	Brown

## Anodised & Wood Look

Our Wood Look coating layers combine the typical warm appearance of wooden frames with all the benefits of aluminium solutions. An anodised finish puts the aluminium in the spotlight, and gives it a different look depending on the time of day or the seasons. It also offers excellent protection against aggressive environments near the seaside, pools or city centres.

For all available colours, contact your Reynaers Aluminium professional.

Anodised	Wood Look
	
Natural	Acacia
	
Natural Brushed	Brown Oak
	
Natural Polished	
	
New Silver	Concrete Grey
	
Champagne	White Oak
	
Gold	
	
Titanium	Cherry
